The Zuckerman Foundation (Zuckerman Foundation) is offering scholarships for Ph.D. students from the United States and Canada for the academic years 2024-2025. The scholarship is intended for researchers (with high academic achievements) from universities in the United States or Canada who wish to study and work in Israel. The goal of the scholarship is to deepen the academic cooperation between the United States and Israel.

Two universities in Tel Aviv can accept up to 6 students per year. Under the framework of the scholarship program, it is also possible to conduct a combined study mission in the United States or Canada.

The scholarship amount is $51,600 per year for a two-year period and an additional $11,400 per year for the third year of study. The scholarship funding is divided as follows: $60,000 from the Zuckerman Foundation and $3,000 from the host institution.

In special cases, the scholarship may also cover the third year of study.

Eligible candidates must meet the following criteria:

1. Citizenship of the United States or Canada.
2. Can also submit applications with a legal permit to work and study in the United States. The foundation reserves the right to award scholarships to researchers who hold a student visa or a work permit when their academic mission is completed.
3. Completed or will complete their Ph.D. studies before the beginning of the academic year 2024-2025.
4. Must submit a letter of recommendation from their advisor or the university student affairs office.

The following documents are required:

1. CV, including leadership activities. Resume
2. List of at least three publications and the Impact Factor of the journals in which they were published.
3. Three letters of recommendation, including one from the advisor for the Ph.D. degree. Whenever possible, add a letter of recommendation from a faculty member who is not from the university the candidate has completed their studies.
4. A personal statement detailing their future plans, including their intention to return to the United States or Canada after their studies.

All documents must be submitted by July 21, 2024, to the email address shlomita@tauex.tau.ac.il.
**ZUCKERMAN POSTDOCORAL PROGRAM 2024-2025**

**CALL FOR NOMINATIONS**

Two postdoctoral scholarships at each participating university will be awarded for the 2024-2025 academic year (16 in total).

Applications will be accepted through July 31, 2024. Applications will be reviewed and ranked by the Selection Committee over the course of the month of August 2024. Finalists will be announced in September 2024.

**ABOUT**

The Postdoc Program will strengthen the connection between participants and the countries of the United States and Canada with Israel through unique experiences and new relationships formed during the program.

The Zuckerman Postdoctoral Scholars Program attracts high-achieving postdoctoral scholars from premier universities in the United States and Canada to do research at one of eight Israeli universities. Once they complete their research, many Zuckerman postdocs are expected to accept faculty positions at top North American universities, weaving a network of academic collaboration and goodwill that will greatly benefit US-Israeli scientific cooperation.

The program enriches scholars with high-quality workshops and world-class speakers.

Zuckerman Scholars enjoy programming and activities organized especially for them by the program and their host universities in Israel, including touring, educational experiences, and social programs. These activities are designed to strengthen the scholars’ knowledge of and connection to Israel, as well as to foster new relationships cultivating an esprit de corps and encouraging the exchange of ideas.

Candidates for the Zuckerman STEM Leadership Program are assessed based on their academic and research achievements, as well as on personal merit and leadership qualities, without regard to race, religion, gender, ethnicity, or age.

Recipients may not accept other scholarships concurrently with the Zuckerman STEM scholarship.

Participating Israeli universities are Ariel University, Bar-Ilan University, Ben-Gurion University of the Negev, University of Haifa, The Hebrew University of Jerusalem, Technion – Israel Institute of Technology, Tel Aviv University, and Weizmann Institute of Science.

Candidates may apply to more than one of the above universities.
Tracks and Eligibility

Two postdoctoral scholarships will be given out per participating university for the 2024-2025 academic year in two tracks. Candidates may apply to more than one of the eight participating Israeli universities.

**Israeli University Postdoc Track:**

- A two-year postdoctoral scholarship where scholars conduct research exclusively at one of eight participating Israeli universities.
- Must be a citizen of the United States or Canada or hold a documented permanent residency status in the US or Canada.
- Candidates must have earned a PhD degree from a prominent university in the United States or Canada. Alternatively, candidates who are nearing the completion of their PhD studies are required to submit their thesis by October 1, 2024, of the year in which they are applying to the Postdoc Program, applicable to the academic year 2024-2025 and for each academic year thereafter.
- Candidates intending to compete for academic positions in the United States or Canada upon completion of their postdoctoral training period are preferred.
- Candidates must receive written consent from a prospective hosting supervisor at the University or Universities of their application.
- The scholarship period for each Postdoc Scholar will be two years. In special circumstances and upon a request from the host University, extend the scholarship period for a given Postdoc Scholar by up to one additional year, for a total period of three years.
- The starting date of the Scholarship in 2024-2025 academic year is October 2024.
- Candidates may start their scholarship as early as June 2024, and no later than March 2025 for up to maximum 24 months from the date of start.

**Joint Israeli-North American Postdoc Track:**

- A two-year joint postdoctoral scholarship where scholars spend half of their time at one of eight participating Israeli universities, and the other half at a US or Canadian university.
- Joint postdoctoral candidates must be citizens of the United States or Canada or have a documented status that allows them to remain permanently in the US.
- Candidates must hold a PhD degree from a leading American or Canadian university, or if still studying for a PhD, must submit their PhD thesis before October 1, 2024.
- Joint postdoctoral candidates must obtain consent from potential hosting supervisors at both the Israeli university and the American or Canadian university to which they are applying.
- The starting date of the Scholarship in 2024-2025 academic year is October 2024.
- Candidates may start their scholarship as early as June 2024, and no later than March 2025 for up to maximum 24 months from the date of start.
**FUNDING**

**ISRAELI UNIVERSITY POSTDOC TRACK**

- Postdoctoral scholars receive a scholarship of $63,000 per year for up to two years.
- Of this amount
  - $60,000 is provided by the Zuckerman STEM Leadership Program, of which:
    - $51,600 divided into monthly payments of $4,300 for living expenses.
    - $8,400 towards relocation reimbursement for the first year.
- Postdoctoral scholars are required to account for relocation funds used as per the requirements of each host Israeli university. Relocation will be reimbursed against receipts for the following expenses:
  - Round trip economy-class airfare (US /Canada– Israel) for the Zuckerman scholar (and spouse)
  - Hotel accommodations in Israel – up to 14 nights (maximum $250 per night)
  - Shipping of personal equipment towards relocation to Israel
  - The remainder may be used to purchase research equipment.
- Any remaining relocation funds not used in the first year can be applied towards research funds in the second year.
  - $8,400 towards research and travel to professional conferences for the second year.
- An additional $3,000 in research funds is directed to scholars through their supervisors at their Israeli universities.
- Reaserch and travel funds are subject to Israeli academic institution regulations.

**JOINT ISRAELI-NORTH AMERICAN POSTDOC TRACK**

- Postdoctoral scholars receive a scholarship of $63,000 per academic year for up to two years on the condition that the scholar be present and conducting research at the Israeli university for at least six months per year. Of this amount,
  - $60,000 is provided by the Zuckerman STEM Leadership Program, of which:
    - $51,600 divided into monthly payments of $4,300 for living expenses.
    - $8,400 towards relocation reimbursement.
- Round trip economy-class airfare (US – Israel) for the Zuckerman scholar (and spouse)
  - Hotel accommodations in Israel – up to 14 nights (maximum $250 per night)
  - Shipping of personal equipment towards relocation to Israel
  - The remainder may be used to purchase research equipment. Reimbursement will be provided upon completion of at least one year of their two-year scholarship in Israel.
- Any remaining relocation funds not used in the first year can be applied towards research in the second year.
  - $8,400 towards research and travel to professional conferences for the second year.
- An additional $3,000 in research funds will be allocated annually to scholars by their Israeli university supervisor.
- Reaserch and travel funds are subject to Israeli academic institution regulations.
- US or Canadian university may provide other supplemental funding for living expenses.
- Joint postdoctoral candidates must be citizens of the United States or Canada or have a documented status that allows them to study and work in the US.
- Candidates must hold a PhD degree from a leading American or Canadian university, or if still studying for a PhD, must submit their PhD thesis before October 1, 2024.
Joint postdoctoral candidates must obtain consent from potential hosting supervisors at both the Israeli university and the American or Canadian university to which they are applying. The Zuckerman Postdoctoral Scholarship is paid by the host academic Israeli institution in Israeli Shekels (ILS).

GUIDELINES FOR APPLICATIONS

To apply for the Postdoc Program, candidates will be required to secure written consent from a potential supervisor at one or more of the Universities and to submit such consent with its application:

- Curriculum vitae, including a paragraph on demonstrated leadership qualities.
- List of at least three publications, noting in which journals the papers were published.
- Research proposal (maximum 3 pages).
- Recommendation letter from the hosting supervisor at the Israeli university/universities to which the candidate is applying.
- Three letters of recommendation, including a letter from the candidate’s PhD supervisor. If possible, one letter should be from a university other than the one where the candidate’s PhD was granted.
- Personal statement detailing the candidate’s future career plans, including a statement regarding the candidate’s plans to return to the United States or Canada to compete for an academic position.
- A simplified 200-word description of intended research.
- Copy of passport or a documented status that allows the scholar to remain permanently in the US.

Additional Supporting Documents for the Joint Israel-North America Postdoc Track:

Recommendation letter from the hosting supervisor at the US or Canadian university to which the candidate is applying.

The research proposal must include a description of how the research will be conducted at the two hosting institutions, how the supervisors will jointly oversee the research, any prior collaboration between the two supervisors if relevant, and the added value of conducting the joint research. It should also include a proposed timeline for when the candidate will be at each institution, if known.

Annual Notification of Renewal for both tracks

By June 1st of the first year in the program, scholars must notify their hosting universities whether or not they are continuing in the program for a second year.

To renew for a second year, scholars must obtain a letter of request from their supervisors. They should send this, along with their own request for renewal and a summary of their postdoc research, to the Coordinators at their Israeli university.
Zuckerman Scholars are required to participate in sponsored events and activities during the academic year.

These events include but are not limited to:
A day-long academic event at each participating university campus.
Visits to various departments, research programs, and research facilities, including opportunities to meet students and faculty at other universities.
Social activities and sightseeing trips. Scholars will be exposed to Israeli culture, meet with various sectors and ethnic groups, and visit science parks and high-tech incubators in Israel.
A Zuckerman Institute Symposium featuring postdoctoral scholars presenting their research from participating universities in the Zuckerman STEM Leadership Program. This program is open to the public and is covered in the media.

Publications and Recognition

All postdoctoral scholars will be identified as “Zuckerman Scholars” or “Zuckerman Postdoctoral Scholars” as appropriate.

Zuckerman postdoctoral scholars must identify themselves as members of the Zuckerman Postdoctoral Scholars Program in all academic and scientific papers, articles, publications, presentations (including web pages) of any material based on or advanced under the Zuckerman STEM Leadership Program, in the following terms: “This work was supported in part by the Zuckerman STEM Leadership Program.”

Where appropriate, for purposes of branding, clarity and differentiation, the scholar should include the title “Zuckerman postdoctoral scholar.”

On social media platforms, scholars should acknowledge their affiliation with the Zuckerman STEM Leadership Program when sharing or discussing research funded or advanced by the program. A suggested post phrasing could be: "Proud to share my latest research, supported in part by the #ZuckermanSTEMLeadershipProgram."
